**Global Challenges Like Climate Change
Cannot Be Addressed without Africa 123**

The Fletcher Forum of World Affairs aims to provide a broad, interdisciplinary platform for analysis of legal, political, economic, environmental, and diplomatic issues in international affairs. The editorial board of *The Fletcher Forum of World Affairs* believes that the publication's audience values and expects the inclusion of conflicting viewpoints; the board does not expect readers to concur with all of the views expressed by *Forum* authors. This inherent diversity supports the very definition of a "forum," i.e., a public meeting place for open discussion.

The views and opinions expressed in the journal are solely those of individual authors and should not be regarded as reflecting any official opinion or position of *The Fletcher Forum of World Affairs*, The Fletcher School, or its faculty.
